DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-19 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The specification and claims 1 and 15 do not clearly define (1)"certain parameters of the Mueller matrix are determined beforehand, parameters suited to the characterization of the manufacture and only these parameters are extracted from ellipsometric measurement during manufacture" and (2)"said parameters are at least two different in number from the ellipsometric angles psi and delta and from the trigonometric functions of the said angles" in such a manner that one skilled in the art could make and use the device. Claims 1 and 15 are extremely vague.

Allowable Subject Matter

Claims 1-19 would be allowable if claims 1 and 15 were rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
